PROFESSIONAL SUMMARY

Software Engineer with 1.5+ years of experience building backend systems and full-stack web applications using ASP.NET Core, Node.js, NestJS, React.js, and SQL Server. Experienced in developing scalable REST APIs, real-time GPS tracking systems, and enterprise-grade government solutions including Suthra Punjab. Strong expertise in database optimization, authentication systems, clean architecture, and high-performance backend development across SQL Server, MySQL, and MongoDB.

EDUCATION

Bachelor of Science in Computer Science | NUTECH, Islamabad Oct 2020 – Jun 2024

PROFESSIONAL EXPERIENCE

Software Engineer — .NET Core / Node.js | CodingKey Nov 2025 – Apr 2026

- Developed and shipped a complete API module supporting high-volume business-critical workflows using ASP.NET Core and NestJS.
- Optimized MySQL schemas and queries through indexing and refactoring, improving response times by up to 40%.
- Implemented JWT-based authentication and role-based access control across backend services, reducing bug reports by ~20%.
- Collaborated with React.js frontend developers and QA teams while following clean architecture principles.

Software Engineer — ASP.NET Core / SQL Server | AskTech Ltd. Mar 2025 – Nov 2025

- Designed and delivered ASP.NET Core Web APIs and SQL Server databases handling high-volume transactional data for 3+ enterprise clients.
- Led backend development of Suthra Punjab — a live government Waste Management System — reducing manual reporting effort by ~30%.
- Built a real-time vehicle tracking system with GPS ingestion, POI proximity logic, and automated alerting.
- Engineered SQL Server schema optimizations that reduced query response times across mission-critical workflows.

Web Developer Intern | Pakistan International Airlines, Islamabad Aug 2023 – Sep 2023

- Enhanced internal web applications using HTML, CSS, and JavaScript.
- Improved UI structure and accessibility, contributing to better usability of internal tools.

PROJECTS

Complaint Management System | ASP.NET Core, SQL Server, REST API | 2024

Built a production-grade ASP.NET Core Web API with 90%+ automated test coverage and optimized SQL Server schema design for high-volume complaint workflows.

Sales Forecasting Tool | Node.js, React.js, Python | 2024

Developed an e-commerce forecasting platform integrating ML models with a Node.js REST API backend and an interactive React.js analytics dashboard.

ScrollsafeApp | React.js, Node.js, MongoDB | 2024

Engineered a full-stack social media application featuring JWT authentication, real-time feed, posts, likes, and comments using the MERN stack.

TECHNICAL SKILLS

Languages: C#, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS

Backend: ASP.NET Core Web API, Node.js, NestJS, Express.js, RESTful APIs

Frontend: React.js, Next.js

Databases: SQL Server, MySQL, MongoDB

Tools & DevOps: Git, GitHub, Docker, JIRA, Azure DevOps

Concepts: Query Optimization, Authentication & Authorization, Clean Architecture, Agile/Scrum

CERTIFICATIONS

- HTML and CSS in Depth – Coursera
- Node.js Essential Training – LinkedIn Learning
- Software Testing/QA – LinkedIn Learning
- Version Control with Git – Coursera

VOLUNTEERING & LEADERSHIP

Treasurer – NUTECH Literary & Debating Club (2022–2023): Managed finances and coordinated events.

Event Lead – Microsoft Learn Student Ambassador (2023–2024): Organized tech events and workshops.
